Checklist for Developing your Access Welcome Guide

Caravan, Glamping and Camping

How to use the Checklist

Complete the Checklist. For each item you mark 'Yes,' publish the corresponding accessibility feature and its description in your Access Welcome Guide.

If you feel you have not ticked many boxes, don't worry! This information will still be important for many of your customers. There is no immediate action required for features marked 'No'. You may wish to revisit them with your team to explore what's feasible or valuable to introduce in the future.
